WEATHER OF CONCERN

Weather of Concern

- A moderate atmospheric river will bring rain and snow to the Sierras throughout the latter part of this week and into the weekend. Waves of precipitation are expected Thursday through Saturday.
- Healthy precipitation totals are expected over the course of the next few days from the North Coast down through the Bay Area coupled with very low morning temperatures.
- Heavy precipitation is expected in the Sierras and showers are possible in the Central Valley and foothills

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER SYNOPSIS BY REGION

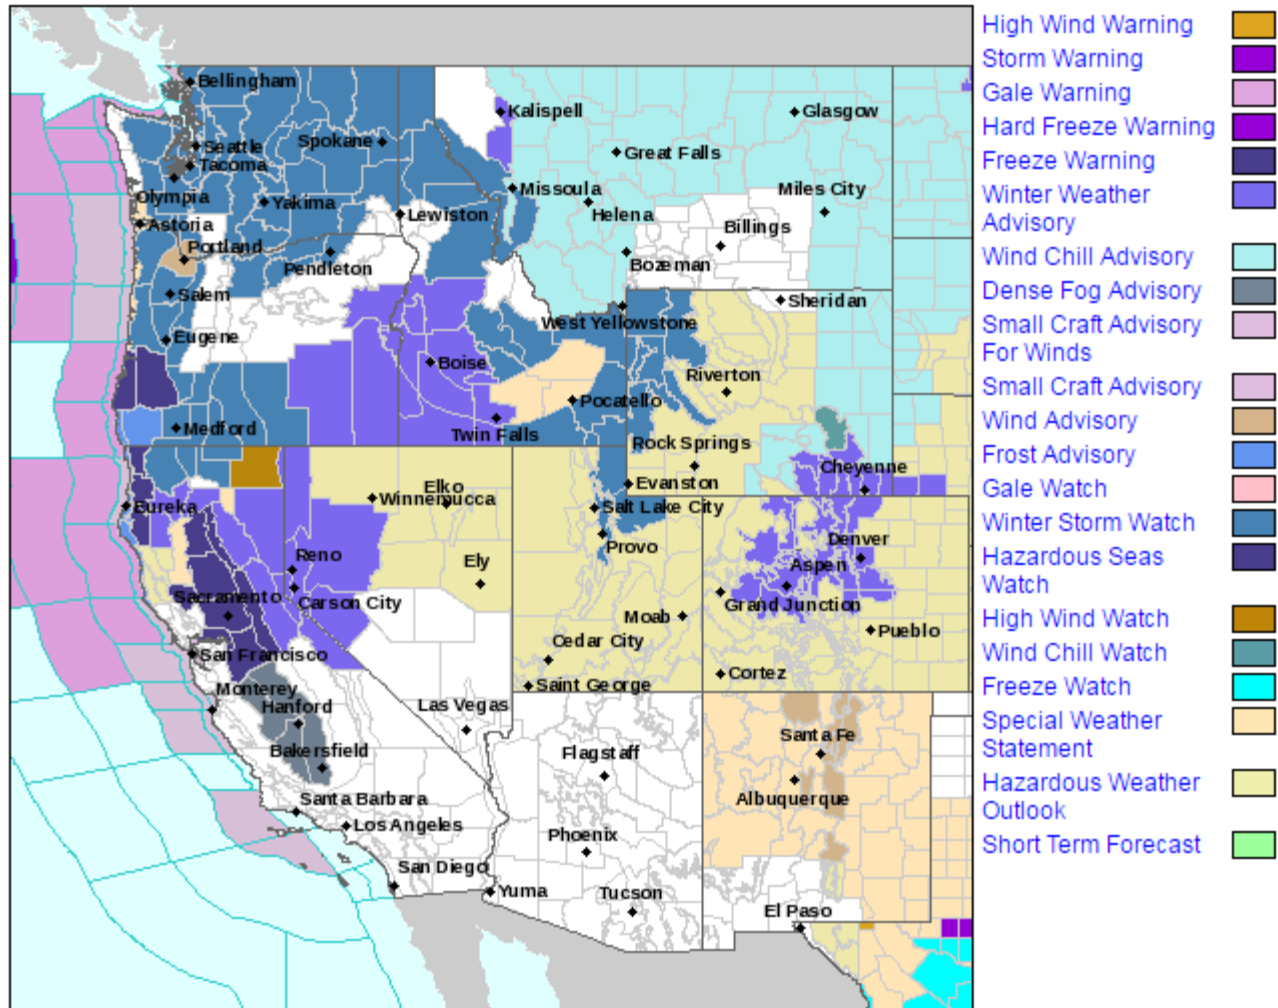

NORTHERN CALIFORNIA

A relatively weak weather system continues to move through Northern California. This includes some snow showers at reasonably low elevations. Some freezing fog and frost will hit a wide area throughout Northern California. A series of weather systems with somewhat warmer air and periods of quite a bit more precipitation is expected to materialize and last through the weekend. Decidedly winter-weather travel conditions will occur at times, especially in the mountains. Snow levels over the next week look like they will be around 2000-2500 feet at the lowest in the north and about 4500-5500 feet in the south. The most significant snow accumulations will be from about 5000 feet and higher through the weekend.

SOUTHERN CALIFORNIA

Zonal flow will set up across Southern California through early next week bringing a little above normal temperatures and high humidity. Maximum temperatures will be in the mid 40s to mid 50s across the mountains, mid 50s to mid 60s in the valleys of Central California, and mid 60s to mid 70s in the valleys of Southern California. Showers will occur from a San Luis Obispo/Tulare County line northward at times through early next week. Significant rainfall with over an inch will occur from a Monterey/Fresno County line northward. The snow level will be between 8,000 and 9,000 feet. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas at times through early next week.
